

Destinations Mobility *AMS Genesis*

The *AMS Genesis* lowered floor minivan conversion from Destinations Mobility is the next generation in affordable, stylish mobility transportation. Built in the USA on the industry-leading Toyota Sienna platform, it features the latest innovations for wheelchair passengers or drivers.

One of the best values in the industry, the *Genesis* comes loaded with standard features, including an ADA standards-exceeding 57" door opening, in-floor power ramp, kneeling feature, LED entry lighting and two removable front seats.

AMS Genesis Standard Features

- ADA approved side entry conversion with a generous 57" door clearance, 30" wide ramp and 59.5" interior headroom.
- Full kneeling feature and LED entry lighting for easy access.
- Textured sound-dampening anti-skid flooring for safety, durability and easy cleaning.
- Both front seats remove quickly and independently, with industry-first magnetic wiring harnesses.
- Four methods to deploy power ramp: Wireless remote, magnetic wand, interior switch on C pillar and dash mounted switch.
- Interior L Track wheelchair securement system.
- Convenient third row fold down foot rest.

As a NMEDA certified dealership, our expert mobility team provides maintenance, service, and an industry-leading warranty you can trust. Visit us online to view our inventory and a full line of fine mobility products.
